Part No./Price List

Technical Information Index

Revised June, 1982
S241-6058-2

IBM Electronic Typewriter 50

IBM Electronic Typewriter 60

IBM Electronic Typewriter 75

SAFETY PRECAUTIONS

The drawings and specifications contained herein shall not be reproduced in whole or in part without written permission.

IBM has prepared this maintenance manual for the use of IBM Customer Engineers in the installation, maintenance and repair of the specific machines indicated. IBM makes no representations that it is suitable for any other purpose.

Information contained in this manual is subject to change from time to time. Any such change will be reported in subsequent revisions or distributed through Customer Engineering Memorandums (CEMs) to all subscribers.

Requests for copies of IBM publications should be made to your IBM representative or to the IBM Branch Office servicing your locality.

Comments about the publications may be addressed to (IBM Corporation, 740 New Circle Road N.W., Publications Department 901, Lexington, Ky. 40511). IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation whatever. You may, of course, continue to use the information you supply.

"It is possible that this material may contain reference to, or information about, IBM products (machines and programs), programming, or services that are not announced in your country. Such references or information must not be construed to mean that IBM intends to announce such IBM products, programming, or services in your country."

"IBM," "Executive," "IBM EXECUTARY," and "Selectric" are registered trademarks of the IBM Corporation.

All IBM Customer Engineers are expected to take every safety precaution possible and observe the following safety practices when servicing IBM equipment.

Mechanical Safety:

1. *Safety glasses must be worn.*
2. *All safety devices, such as guards, shields, signs, ground wires, etc., must be restored after maintenance. When a guard or shield is removed to observe or make an adjustment, that shield must be replaced when work in the area is completed.*
3. *Watches, rings, necklaces, ID bracelets, etc., must be removed when servicing the machine.*
4. *Care must be used when working near moving parts. Keep hair away from moving parts. Avoid wearing loose clothing that might be caught in the machine. Shirt sleeves must be kept buttoned or rolled above the elbows. Ties must be tucked in the shirt or have a tie clasp approximately three inches from the end. Tie chains are not recommended.*

Electrical Safety:

1. *The equipment referenced in this manual may use high voltages. Check voltage labels!*
2. *Safety glasses must be worn when checking energized circuits.*
3. *If a circuit is disconnected for servicing or parts replacement, it must be reconnected and tested before allowing the use of the machine.*
4. *Power should be removed from the machine for servicing whenever possible. Remember, when checking voltages, avoid contacting ground potential, such as metal floor strips, machine frame, etc.*
5. *Meter continuity checks should be used instead of voltage checks whenever possible.*
6. *Do not apply power to any part, component, or subassembly when it is not physically mounted in the machine, or its approved service position.*

General Safety:

1. *Each Customer Engineer is responsible to be certain no action on his/her part makes the product unsafe or exposes customer personnel to hazards.*
2. *Store the removed machine covers in a safe, out of the way place where no one can trip over them.*
3. *If you must leave the machine in a down condition, always install the covers and disconnect the power before leaving the customer's office.*
4. *Always place CE tool kit away from walk areas where no one can trip over it.*
5. *Maintain safe conditions in the area of the machine while performing and after completing maintenance.*
6. *Before starting the equipment, make sure fellow CEs and customer personnel are not in a hazardous position.*
7. *After the machine covers must be in place before the machine is returned to the customer.*

Note: Refer to the Safety CEMs relating to this product(s) for further safety precautions.

PART NUMBER PRICE LIST (PN/PL) INSTRUCTIONS
This PN/PL is used with APM S241-6057-3. When a selling price is not shown in this listing, contact your local IBM Branch Office.

Parts information contained is for the following products:

Equipment Description	Machine Type
IBM Electronic Typewriter (All Models — 15")	6713
IBM Electronic Typewriters (All Models — 19")	6723

SPECIAL PART NUMBER IDENTIFICATION

Part numbers with a code printed in the description column provide footnotes, restricted parts.

Code	Additional Information
1	Refers to a note at the end of the Mechanism list. Machine serial numbers are approximate.
"Q"	Restricted Part; Contact CE Management. Reference SRL P&S 035

Part numbers with a code printed to the right of the selling price provide additional information for ordering, identifying or locating part.

Code	Additional Information
A	Specify color
C	Typestyle, character, position, catalog number
E	Typestyle, keyboard arrangement, number of characters, machine model
G	Specify forms width
H	Pin-to-pin dimension and hardness
#	*Recommended Parts Inventory Parts. Reference CE. Recommended Parts Inventory (F/N Z241-5613)
R	*All Red Tag parts usage must be recorded regardless of the machine type and status.
U	*Used Part Returnable For Credit. Reference General Administrative CEM No. 10 or appropriate SRL by Product.
WT	*World Trade
FE	*Field Engineering Part. If not in OP stock, check local FE stock before ordering Code A
B4	*Japanese Series III
T	Supplies or accessory items
S	Specify length in feet

*These codes may be used in combination with other codes.
Example: #R — RPI/Red tag; WR — World Trade/Red tag.

NOTE: World Trade (WT) part reference numbers and part numbers NOT included in this listing may be obtained by ordering World Trade Part Number/Price Lists through local CE Management (Reference ordering instructions contained in SRL AV/P 001).

Parts Packet Parts — Part numbers contained in Parts Packets are identified by a two-digit number printed on the right of the selling price that corresponds with the last two digits of the Parts Packet Part Number. Complete Parts Packet Part Numbers are listed before the first mechanism code in this publication.

Example: 0332747 Retainer .04 13
is in Packet No. 13 (1152413)

Example: 1070029 Pin Clevis .15 06
is in Packet No. 6 (1280706)

CODES 32 AND 33 INFORMATION

Current Codes 32 and 33 information is printed in the Technical Information Index of this Part Number/Price List.

CEM INFORMATION

This edition contains part numbers and prices previously printed in CEMs through CEM No. 249.

When new parts information is released in a CEM and the parts are not shown in the illustration portion of the Parts Catalog, the CEM number and the reference number will be printed at the beginning of the proper mechanism.

MISCELLANEOUS EQUIPMENT SPECIFICATION (MES) AND SPECIAL ENGINEERING REQUEST (SER) PARTS INFORMATION

Features, devices, specification changes or replacement parts not shown in the Parts Catalog must be ordered through CE Management and Branch Office Sales.

TECHNICAL INFORMATION INDEX (TII) INSTRUCTIONS

The Technical Information Index (TII) in the back of this manual replaces the current "Technical Information Index," the "CEM Contents Page" and the "Combined Safety and Service Information Index." The TII will direct you to the most current service information. If the information is in the "Combined Service Information Booklet," the TII will indicate the page and item number. If the information is in a current CEM, the CEM column will indicate the CEM number.

When information printed in the original CEM is needed, contact the local CE Management.

Abbreviations used in the Technical Information Index:

APM — Adjustment Parts Manual
CSI — Combined Service Information
CEM — Customer Engineering Memorandum
SHP — Shop Manual (F/N Z241-6670)
TYP — Type Catalog (F/N S241-5687)

For step-by-step instructions, refer to the Combined Service Information Booklet (CSI).
